Covered under the general copyright of the December 1967 issue of Nursing Outlook

INDEX TO VOLUME 15, NUMBER 1-12 JANUARY-DECEMBER 1967

The material in this index is arranged under subjects and authors. ARTICLES are entered under the name of the author, joint authors, and one or more subjects; BOOK REVIEWS under author and subjects: and NEWS ITEMS under the names of the individuals concerned, the organizations or groups mentioned, and the particular area in nursing and education to which the item pertains.

BEGINNING with January 1964, volume 12, the paging ceased to be continuous within the yearly volume. Each monthly issue begins with page one and is paged continuously therein. This is indicated in the index by a brief abbreviation for the month and page, i.e., Ja 25 means January, page 25. The following abbreviation are used to indicate the months:

Ja	January	My	May	Se	September
Fe	February	Je	June	Oc	October
Mr	March	Jl	July	No	November
Ap	April	Ag	August	De	December

The following abbreviations are used in this index: (abs) abstract; (appt) appointment; (bk rev) book review; (ed) editorial; (exc) excerpt; (illus) illustrations; (jt auth) joint author; (LE) Let's Examine (Series); (L) Letters to the editor; (N) News; (pam) pamphlets; (SR) Search and Research (Series).

Note that the subject headings are the same as those used in the **International Nursing Index** and are based on the **Medical Subject Headings** published by the National Library of Medicine. A "Nursing Thesaurus," which appears each year in the first and fourth issues of the **International Nursing Index,** was compiled to help the user bridge the modification in style from the subject headings formerly used in the nursing indexes to those used in the **International Nursing Index** as well as in the annual indexes of **Nursing Outlook, Nursing Research,** and **American Journal of Nursing.** Copies of this Thesaurus are available upon request from the American Journal of Nursing Company.
